

“With his expert farrier and HoofPRIME, ‘Comanche’ has come through his rehab so positively!”

The repair process begins

Great progress made

Hands down the best hoof oil on the market!

COMANCHE'S HOOF WAS A CASE FOR THE TEXT BOOKS

When your farrier says, “This case should go into the Hoof Books!”, you know something extraordinary has happened.

“The bacteria eating away at his hoof at the start was horrendous. Thanks to my liquid gold Kelato HoofPRIME for keeping the bad bugs away and from re-spreading into that crack. Just look at how far they have come!”

Owner Marcy, horse Comanche and farrier Don have been working together set on improving Comanche's hooves. They began with very poor hoof quality - dryness, cracks, brittle walls, separating hooves. With seedy toe and huge cracks in the coronary band adding massively to the problem, Marcy despaired whether Comanche's hooves could ever be healthy again.

Researching for just the right product to help, **HoofPRIME** with its antifungal, antibacterial and all-weather properties and ingredients jumped out as superior to all other hoof oils on the market. Marcy started its easy application immediately. She could almost 'see it working'.

At the next 4 weekly visit, her very experienced farrier, Don Touzel, was extremely happy with the progress he could see after just one month.

After 3 months, Don was blown away by the improvements in the crack. The huge second hole was almost out and the crack in the coronary band has sealed over, keeping the nasties out and infection at bay.

The amazing results seen by Marcy's and Don's own eyes have resulted in Comanche's soundness and improved overall hoof condition.

Competing at Tonimbuk VIC, Comanche came home with the ribbons. At the start of this journey Marcy wondered whether her Quarterhorse Comanche would ever be where he is now, let alone competing and scoring places at an A Show!

When you're 'over the moon' at the rehab results and your farrier says it's a result for the textbooks, you know you're using the RIGHT product. “I'm so glad he has come through his rehab so positively with the correct shoeing and hoof care product. In fact, hands down the best hoof oil on the market!”

- Marcy and 'Comanche'.

Stronger, healthier hoof

A delighted Marcy, Don and 'Comanche'
