

CROOKED LANE

Premium products supporting optimal pet health and wellbeing

Independently Australian owned and operated, Crooked Lane was established in 2016 and is proudly based in the beautiful Hawkesbury, NSW. We believe that optimal health and wellness are achieved through premium natural products combined with a healthy, balanced lifestyle.

Through our natural, veterinary-formulated SOLUTIONS range, alongside our premium HARVEST range of preservative and additive-free botanicals and nutritional products, we are committed to supporting optimal health and wellbeing in animals. Guided by emerging research and proven ingredients, our mission is to continually evolve and expand our range-delivering only the highest-quality premium products to the animal health market.

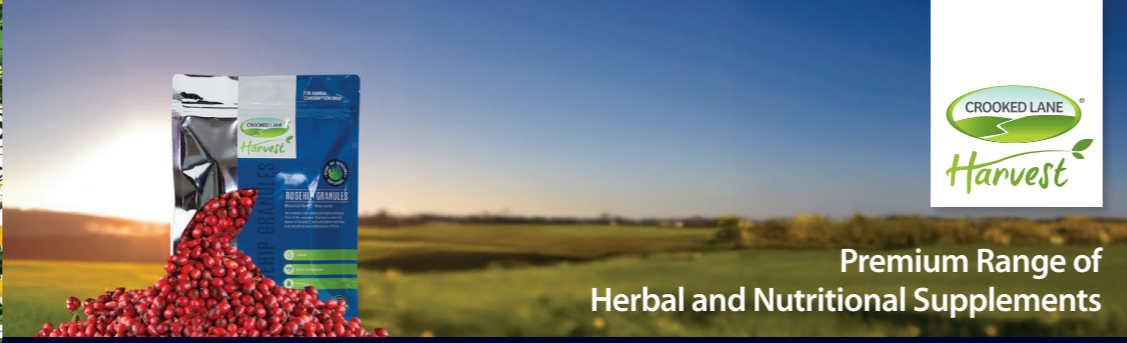

SOLUTIONS

Crooked Lane Solutions is a range of innovative, veterinary formulated, natural products to support health and wellness in animals. From dental health; joint, skin and coat health; to anxiety in dogs, we are committed to bringing the best solutions to market. All our products are 100% Australian Made.

Naturally Calm

- FOR DOGS
- VETERINARIAN FORMULATED
- FAST ACTING
- EASY-DOSE CHEWS
- WORKS NATURALLY

Crooked Lane Solutions Naturally Calm Chews offer an advanced formulated supplement, developed to help reduce restlessness and excitability in dogs. Containing a select probiotic, L-tryptophan, B-vitamins, magnesium, and herbal extracts, Naturally Calm provides a fast acting, easy-dose chew that may help in times of unease, such as storms, travelling, fireworks, kennelling and training. Developed to help calm and settle dogs naturally, these soothing chews contain a select probiotic (probiotic supplements have been a promising area of research that focuses on the microbiota-gut-brain axis), L-tryptophan (tryptophan is an amino acid that is important for the production of serotonin in the body), Withania Somnifera (commonly known as Ashwagandha, an important medicinal plant), Matricaria recutita (Chamomile, an important nerve, digestive and detoxification herb), Magnesium (involved in maintenance of nervous function) and B group vitamins (have a role in normal general metabolism & nervous system function).

- PRESERVATIVE FREE FROM ADDITIVES

Did You Know?

Your pet's dental hygiene is essential to good internal health. Periodontal disease (PD) is a significant veterinary health problem of companion dogs with most dogs reported to be affected with some degree of PD by age two. Daily brushing is considered the gold standard in dental hygiene, but this is not always achievable. So why don't you look for a natural daily supplement to help keep your dog or cats teeth clean such as DENTAL Organic Seaweed Meal!

Ascophyllum nodosum is a type of seaweed known to be beneficial for dental health maintenance in dogs and cats. Antioxidant-rich prebiotic feed ingredient, Ascophyllum nodosum also helps increase the utilisation of all ingredients in the complete feed ration, beneficial for the overall health and performance of animals.

General Feeding Guide:

Not recommended for animals under 6 months of age. As Seaweed Meal contains the highest plant source of iodine, which can affect thyroid balance, it is not advised to feed to animals with hyperthyroid disease.

DOGS

Small up to 10kg bodyweight – ¼ to ½ scoop added to food or as directed by your veterinarian.

Medium 11-20kg bodyweight – ½ to 1 scoop added to food or as directed by your veterinarian.

Large 21-40kg- 1 to 2 scoops added to food or as directed by your veterinarian.

CATS:

¼ scoop added to food or as directed by your veterinarian.

1 scoop = appx. 650mg to 750mg.

Available in 150g Resealable Cardboard Jar.

- ✓ EPA & DHA supplement for dogs and cats
- ✓ For joint, skin and coat health
- ✓ Contains vitamin A, D & E
- ✓ Free from artificial colours and flavours
- ✓ Mercury and dioxin tested

ULTRAmega N3 Oil

- FOR DOGS AND CATS
- SKIN AND COAT HEALTH
- JOINT MOBILITY

ULTRAmega N3 Fish Oil is a highly concentrated Omega-3 supplement designed to support optimal joint function, as well as promote healthy skin and coat in both dogs and cats.

Omega-3 fatty acids are not produced by the bodies of animals and must be introduced through diet. Quality fish oil supplements contain two types of long-chain omega-3 polyunsaturated fatty acids called Eicosapentaenoic acid (EPA) and Docosahexaenoic acid (DHA) which are commonly found in cold water fish such as salmon, anchovies, tuna and trout.

ULTRAmega N3 Fish Oil is a sustainably sourced EPA, DHA, Essential Fatty Acid Supplement for Dogs and Cats; beneficial for maintaining joint health function and normal healthy skin and coat. Supplementing with EPA & DHA may help to reduce pain and dysfunction in dogs with osteoarthritis and may aid the management of atopic dermatitis.

Available in 200ml pump pack.

Each 1 gram contains EPA 180mg, DHA 120mg, Vitamin E 1mg

Directions For Use:

For maintaining a healthy skin and coat Administer 1ml per 10kg bodyweight per day in food (1 pump per 4kg), or as directed by your veterinarian

For Joint health and mobility Administer 2.5ml per 10kg bodyweight per day in food (2.5 pumps per 4kg)

1 pump delivers approximately 0.4ml

6 Potential Benefits of Fish Oil
