

# DenteVet®

## DENTAL CARE RANGE

Easily freshen your pet's breath  
+ reduce plaque and tartar.

### DenteVet® Powder 80g

Anti-Plaque Powder For Cats and Dogs

Active Constituent: *Ascophyllum nodosum*  
Helps reduce bad breath, plaque and tartar. Contains naturally sourced *Ascophyllum nodosum*, proven to reduce dental issues in dogs and cats by changing the pet's saliva to manage dental issues from the inside out.

### DenteVet® + JOINT Powder 250g

Anti-Plaque Powder + Joint Support  
For Dogs and Cats

Active Constituents: *Ascophyllum nodosum* 400g/kg and Green Lipped Mussel 600g/kg  
Helps reduce bad breath, plaque, and tartar + supports joint health. Proven to reduce dental issues in dogs and cats, by changing the pet's saliva to manage dental issues from the inside out. PLUS contains a scientifically proven ingredient to help mobility in dogs and cats. Contains no preservatives or added flavouring. Contains pure and natural sustainably sourced ingredients.

### Mavlab Dental Spray Gel 125g

For Dogs, Cats and Horses

Active Constituents: 67mg/100g Chlorhexidine (present as 120mg/100g chlorhexidine gluconate)  
Chlorhexidine gluconate incorporated into a gel inhibits plaque regrowth. It is recognised as the most effective substance for this effect as it exerts an antibacterial for a much longer time than other antimicrobials. APVMA40725/1200
