Freeze The Best For Last

OUR MISSION

Nestled in the heart of Melbourne, Australia, we are a family-operated venture driven by a singular goal. We specialize in creating "SUPERPREMIUM" freeze-dried raw treats in Australia. Unlike conventional pet treats, our products contain ingredients that are genuinely human-grade, reflecting our commitment to delivering the very best. Our rigorous ingredient selection process ensures that artificial additives, fillers, and preservatives have no place in our offerings, upholding our promise of exceptional quality. With the widest array of freeze-dried treats in Australia, we proudly stand as the largest range available.

How we make our treats:

Human grade ingredients sourced in Australia

**It starts with fresh locally grown
produce delivered straight to our
kitchen in Melbourne, Australia**

**State-of-the-art freeze drying technology,
as used by Aerospace**

**The raw ingredient is then freeze-dried in a
30 hours process to preserve the nutrients.**

**Packaged and delivered to your door for
your pets to enjoy!**

**From The raw ingredient to our kitchen to your
door - we control every steps to guarantee our
products are superpremium quality!**

**All products are made from our
own HACCP and PrimeSafe
certified production facility.**
