

# Ranvet's Paste Range

The Paste Range Catering to all Horses,  
Regardless of Discipline

Recovery-Aid

## Electrolyte, BCAA, B-group & Antioxidant Paste for Horses

- Supplies a highly concentrated source of amino acids necessary to maintain muscle tissue following periods of stress and intense exercise.
- Supplies critical electrolytes required for optimal performance.
- Aids appetite and supports a positive blood profile.

BC5 Paste

## Branched Chain Amino Acid Paste for Athletic Horses

- Pre-exercise supplementation considerably reduces muscle protein degradation during exercise.
- Post-exercise supplementation aids muscle recovery following intense exercise stress.
- Supplies a highly concentrated source of amino acids necessary to maintain muscle tissue following periods of stress and intense exercise.

Calm Paste

## Your Horses Convenient, Travel Calming Supplement

- Provides Tryptophan, necessary for Serotonin production in the brain associated with sedation, reduced aggression and reduced fearfulness.
- Highly concentrated complex B-group vitamin source to improve energy metabolism and stimulate appetite.
- May rectify nervous twitching, flighty behaviour, difficult behaviour and nervous related diarrhoea.

Electro Paste

## Oral Electrolyte For Hard Working & Dehydrated Horses

- Ideal for travelling horses where rapid, convenient, easily transportable electrolyte replenishment is required.
- Reduces the incidence of dehydration, muscle fatigue, poor performance and delayed recovery after strenuous exercise.
- Supplies all critical electrolytes required for optimal performance.
