# The Benefits of Mix Feeding!

Our new wet food range can be enjoyed as a complete meal, but can also be mixed with any of our dry food ranges to add some extra **variety**, **flavour**, and **texture** to your dog's dinner!

- ✓ Combining wet and dry foods can aid in maintaining proper hydration levels while also supporting dental health.
- ✓ Adding new textures and aromas to a dog's meal can entice even the fussiest eaters.
- ✓ When mix feeding our dry and wet food ranges, we recommend that you halve the recommended portion size (relative to your dog's weight) of each to make a complete meal size.
