TROUGH ROCKS

Naturally Clean Water

WHAT IS TROUGH ROCKS?

Trough Rocks are Australian paramagnetic rocks. When placed into your animals trough they inhibit the growth of algae and bacteria. Making the trough water cleaner for your animals to drink. By adding Trough Rocks to your trough your animals urine will no longer burn the grass deterring unsightly patches.

All natural minerals, no chemicals- straight from the earth.

Perfectly safe for humans and animals.

100% Australian made product.

Tried & Tested.

HOW TO USE?

Trough Rocks make clean water stay clean, they don't clean dirty water. It is best to empty and clean your trough before use. Once your trough is clean. Remove tag from the Trough Rocks bag and set aside. Place the entire Trough Rock bag fully submerged into the water. That's it!

Set a reminder in your diary for 4 months time. As the rocks are natural they lose their charge over time and need replacing.
