

# WonderWheat<sup>®</sup> Cat Litter

**TILT**

**SCOOP**

**FLUSH**

**1**

## Directions For Use

**2**

Carefully open the interior bag of Wonder Wheat.  
Fill the box with at least 5 cm of  
Wonder Wheat Cat Litter.

Tilt the litter box to expose the clump(s).  
Scoop daily for 1 cat and more frequently for  
2 or more cats.

**3**

Scoop out the waste and flush or dispose of it.  
Remove only the clump and solid waste – not the  
entire contents of the litter box.  
This product is sewer and septic safe.

**4**

Top-up box so the litter level returns to at least 5 cm.  
Wash hands & disinfect scoop after use.  
Regularly clean & disinfect litter box. This product is  
recommended for indoor use.

### Totally Eliminates Odour

It is the protein enzymes in the wheat that neutralize  
and absorb the odour, organically!  
Wonder Wheat Cat Litters work naturally, without the  
use of chemicals, additives or cover up perfumes.

### Safe Clumping

It is the starch in the wheat that causes Wonder  
Wheat Cat Litters to clump. Unlike other litters,  
Wonder Wheat is clay free, and requires no  
silica dust, sodium bentonite or chemicals to make  
it clump. Wonder Wheat is feline friendly.

### Fully Flushable

Wonder Wheat Cat Litters are Fully Flushable.  
Even safe for septic systems. It actually helps to  
decrease the amount of waste in your septic tank,  
due to an enzymatic reaction from the wheat grain.

### 100% Biodegradable

Wonder Wheat Cat Litters are made from  
100% Australian top grade specially processed,  
wheat grain. A superior organic litter for kittens,  
cats and other household pets. Wonder Wheat is  
so safe, the granules can be eaten without harm.

### Introducing your Cat to Wonder Wheat

Although most cats will immediately accept Wonder Wheat Cat Litters, occasionally older cats  
can be unsure of something new. If this occurs, please follow these steps:

1. Fill the litter box with 3cm of Wonder Wheat Cat Litter.
  2. Spread 2cm of your previous cat litter on top of the Wonder Wheat Cat Litter.
  3. Allow your cat to freely mix the two products when using the litter box.
- Within a short time, your cat will become accustomed to the new litter and will happily use the  
naturally safer Wonder Wheat Cat Litter.

**Please Note:** Do not flush the waste litter until it is 100% Wonder Wheat Cat Litter. This product is sealed  
for freshness and may therefore appear hard at time of purchase. The product will soften when opened.

**Product Information:** Made in Australia from 100% whole grain wheat.
