

# TOILET TRAINING KITTENS A QUICK GUIDE

**How to toilet train your kitten is an important step in ensuring their comfort and maintaining a clean household.**

## **Choose the right location**

Ensure it's away from the kitten's food and water, and in a location where they feel safe and secure. A good place is either the laundry or a small room.

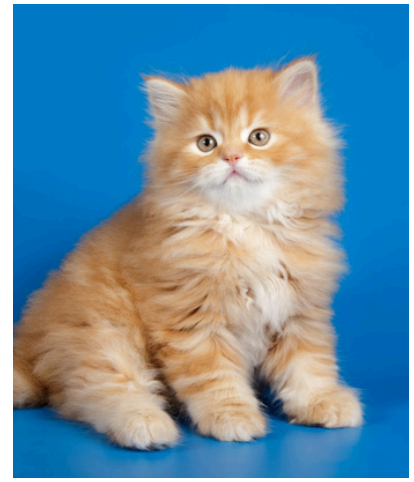

## **What you need**

**Cat litter tray:** Choose a shallow, easily accessible litter tray for your kitten. Consider if you need a standard tray or a sieve tray to separate used litter

**Litter:** Use a non-clumping, unscented litter that is safe for kittens. i.e wood pellet cat litter or paper litter

**Cat litter scoop:** A litter scoop to clean the litter box regularly.

**Cleaning Supplies:** Have enzyme cleaning products and litter tray deodorisers on hand to clean any accidents.

## **Keep It Clean**

Scoop out waste daily to keep the litter box clean and odour-free. Completely change the litter and clean the box with mild soap and water once a week. An eco-friendly litter tray deodoriser will assist to eliminate odour-forming bacteria and germs.

## RELATED PRODUCTS

Catmate Wood Pellet litter is manufactured from Australian sustainably sourced plantation pine and contains natural oils that inhibit the growth of the bacteria that causes the ammonia smell.
